

ID PACK
Sleeve Pack System

INNOVATIONS THAT SHAPE THE WORLD OF PLASTICS.

THE FUTURE OF SLEEVE PACKS – THE NEW ID PACK

ID PACK – A MILESTONE IN TRANSPORT LOGISTICS

The breakthrough in intelligent logistics is here: ID PACK sleeve packs. Professionally engineered and made from the best plastic resins, these reusable collapsible sleeve packs are highly economical, efficient and eco-friendly.

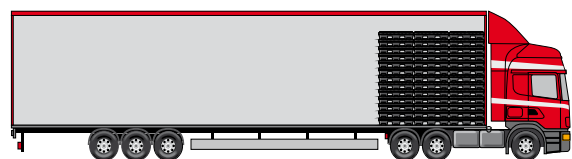

Engineering by experts and down to the last detail, this problem solver offers big advantages in storage and transport of goods of all types. Comprising baseplate, folding sleeve and cover, the ID PACK adapts to your individual needs and is equally perfect for industry or small businesses. Its numerous system benefits make ID PACK the perfect alternative to costly and heavy injection-moulded load carriers and folding containers with cardboard casing.

IMPRESSIVE SYSTEM BENEFITS

- Top value for your purchase dollar
- Big cost savings due to volume reduction in return transport
- Extremely rugged, highly secure protection
- Lightweight construction
- Moisture and rot-proof, outstanding UV resistance
- Very easy to handle
- High industrial safety
- Extremely long service life
- Numerous options available
- Eco-friendly
- 100 % recyclable
- Available for purchase, rental or leasing

Transport to destination (mega trailer):
78 fully loaded ID PACK containers (1225 x 825)

Return shipping (mega trailer): 78 collapsed ID PACK
containers (1225 x 825) on approx. 3 loading meters

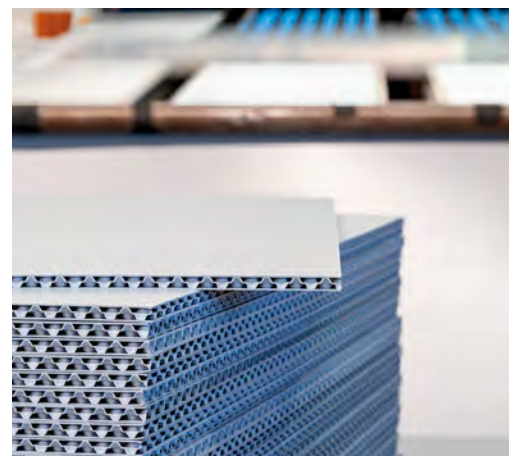

EXCELLENT QUALITY AND PRECISE MANUFACTURING

ID PACK large load carriers are manufactured according to the highest quality standards, because high precision guarantees the excellent functionality and durability of these folding container systems. The black base and cover are made from high stability polyethylene and the container casing from grey polypropylene structured chamber plates. The sophisticated twin-sheet thermoforming technology for baseplates and covers and the intelligent structured chamber technology of the casing give low empty weight and high robustness.

OPTIMAL PRICE-PERFORMANCE RATIO

The cost-saving ID PACK folding container has impressively high functionality and great benefits for internal and external logistics. They are inexpensive to buy and stacked empty they offer significant cost saving possibilities: when folded the volume can be reduced by up to 80 %, which significantly reduces storage and transportation costs. Manufactured from 100 % high performance plastic, they are perfect as multi-use systems for many circulations in the logistics chain.

STANDARD EQUIPMENT PROVIDES SUPERB PERFORMANCE AND RELIABILITY

ID PACK is a professionally engineered sleeve pack system which provides – as standard equipment – everything needed for top-notch efficiency and cargo safety. Its stack-supporting top lid, collapsible protective sleeve and rock-solid pallet base set new standards in reliability and safety. In addition, a wide range of options is available for configuration in accordance with your specific needs.

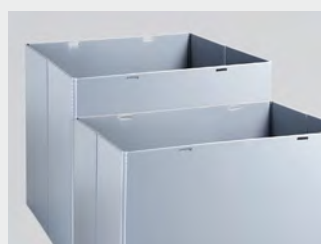

Lid with self-levelling
stack recesses

Self-locking lid closure

Locking holes in sleeve
for lid locking

Customized sleeve height

Side folds for flat collapsing
of sleeve

Heavy-duty pallet base

POWERFUL OPTIONS FOR YOUR SPECIFIC REQUIREMENTS

ID PACK is available with a broad variety of options which can be mixed and matched to meet your specific requirements. Simply choose the desired options for your intended application. Even if you don't see the solution you need here. Let us know and we will come up with a customized solution designed specifically for your unique application.

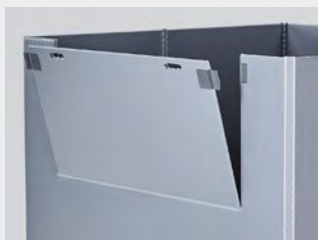

Grip tabs for comfortable handling of the lid

Slide locking for lid and base

Comfort locking for lid and base

Removal flaps in various sizes

Slide locking for removal flaps

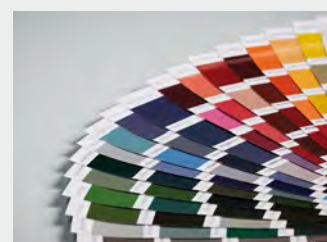

Rounded sleeve edges

I.D. card pocket and placard label holders

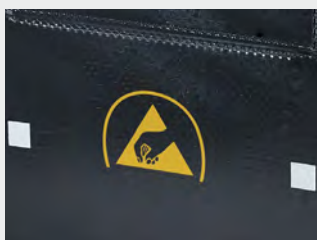

Printing on 1 to 4 sides, also multicolored

Wide range of colors available

RFID tags

ESD antistatic surfaces

Two-part sleeves

HANDLING – QUICK AND EASY

ID PACK fully assembled

Remove lid

Collapse sleeve

Place collapsed sleeve on base

Place lid on top

Stack collapsed ID PACK units
